Arrival Loading

- Klick [here](#) when you arrived at the loading place.

Arrival means that you are in front of the gateway to the factory or supplier (before you drive through).

- Announce your arrival in the name and order of **inTime**.
- **Hint:** Please use the multilingual [Order Details](#) for the registration.
- Please follow the local instructions and rules.

This concerns for example the [personal protective equipment](#) (e.g. wearing safety shoes, safety vest, additional safety equipment), following the traffic regulations e.g. speed limits.

FAQ

- [What should I do if the goods are damaged?](#)

Multilingual order details

With the help of this function the order details can be shown in different languages to the receiver or sender.

- Open a load- or unloading Position
- Press the button 
- Choose the language of the contact person

Personal safety equipment

Many consignors / recipients have special safety requirements / rules, which need to be followed.

This is at least the unasked wearing of:

- safety shoes
- reflective vest

Please stick to the order information and the local safety rules.

Avoid unnecessary discussions with the consignor / recipient personnel and contact **inTime** directly in case of problems.

What should I do if the goods are damaged?

inTime has to be informed immediately. Use the **Messenger** to take photos of the damaged goods. Wait for further instructions of **inTime**.
