

First Steps

- The **inTime** DriverApp is an interactive app with the main functions of order management and communication between the driver and **inTime** during the transport incl. tracking.
- This app is free of charge and needs a registration with user name and password. It can only be used by subcontractors and drivers who are assigned by **inTime**.
- The usage of the app needs special rights, can cause costs for data usage (depends on the mobile phone contract) and is designed for mobile devices with a permanent network access.
- Please use our **Online-Manual** for more information.

You can download the app with your smartphone here:

FAQ

- Can I use the App abroad?
- How can I announce my vehicle as empty?
- How do I get the access data for the App?
- What can I do if the registration does not work?
