Setting of an own password for the inTime DriverApp

To activate your account, you are in the following status:

- ✓DriverApp is installed
- ✓Account has been created (SMS)
- ✗Password has not been set yet
- ✗Account has not been activated yet

Next Steps

- Choose your own password.

Your password has to be at least 8 characters.

Your password must not include your username.

Remember your password and username.

- Insert your password twice, confirm the privacy policy and click on [Next](#).

If the insert password do not match, your account cannot be activated and you have to try it again.

- Your password is saved and your account is activated.

Your account is finally created. From now on you will receive all orders only via the **inTime** DriverApp.

- If you need any help use the [online manual](#) or call **inTime**.
